## Aurelio Peccei Lectures

### INVITATION

The Brussels-EU Chapter has the pleasure inviting you to its thirty-ninth Aurelio Peccei lecture, *Wednesday April 04, 2007*, which will deal with:

### *ICANN: achievements and challenges of a multi-stakeholder, bottom up, transparent model*

Anne-Rachel Inné, African Regional Liaison at ICANN

Giovanni Seppia, European Regional Liaison at ICANN

The Internet Corporation for Assigned Names and Numbers, ICANN, is responsible for the global coordination of the Internet's system of unique identifiers. These include domain names (like .org, .museum and country codes like .UK), as well as the addresses used in a variety of Internet protocols. Computers use these identifiers to reach each other over the Internet. Careful management of these resources is vital to the Internet's operation, so ICANN's global stakeholders meet regularly to develop policies that ensure the Internet's ongoing security and stability.

During the past years, ICANN has demonstrated that it can live up to the challenges of the Internet dynamic environment. The process of further internationalization, the role played in a constantly changing community, the expectations from the Internet stakeholders as well as the goals achieved so far together with an overview of the domain name market will be focus of the lecture.

**Date :** **Wednesday April 04, 2007** from **6:00 till 8:00 PM**.

The lecture will be followed by a refreshment. After the event all participants are invited to a dinner; participation is at own costs.

**Venue:** Royal Flemish Academy of Belgium. Hertogstraat, 1, rue Ducale. B-1000 Brussels  
For planning and logistical reasons, please send your **registration for lecture as well as for dinner** to [Brussels\\_eu\\_cor@scarlet.be](mailto:Brussels_eu_cor@scarlet.be) (with 2 underscores).
