Translating
global insights to
national contexts
enabling action

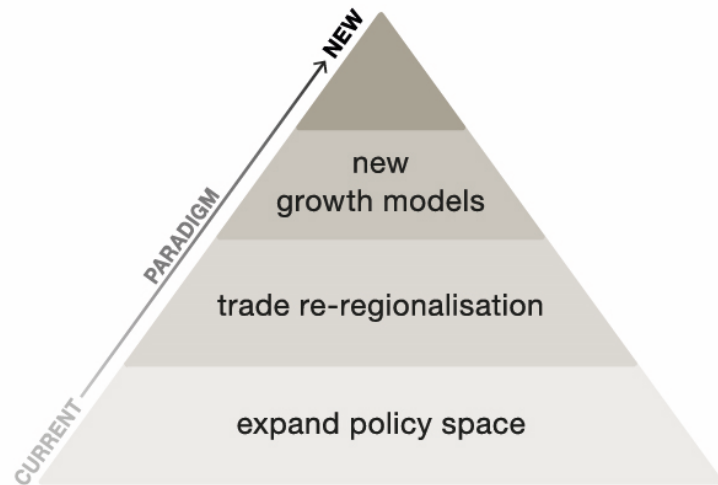

...TO CREATE SYSTEM CHANGE FOR
GREATER **WELLBEING** WITHIN
PLANETARY BOUNDARIES

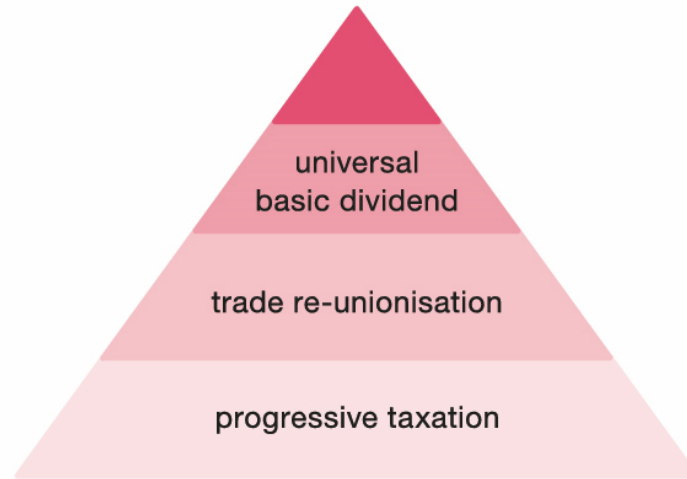

WHAT IS THE PLAN?

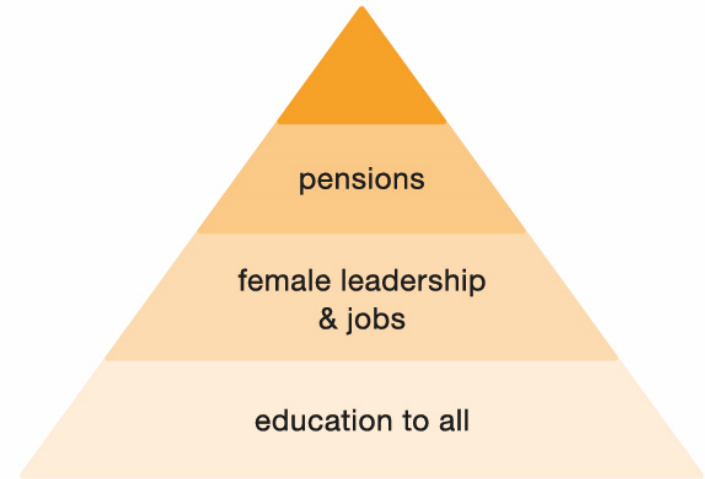

GLOBAL ACTIONS ON NATIONAL LEVEL

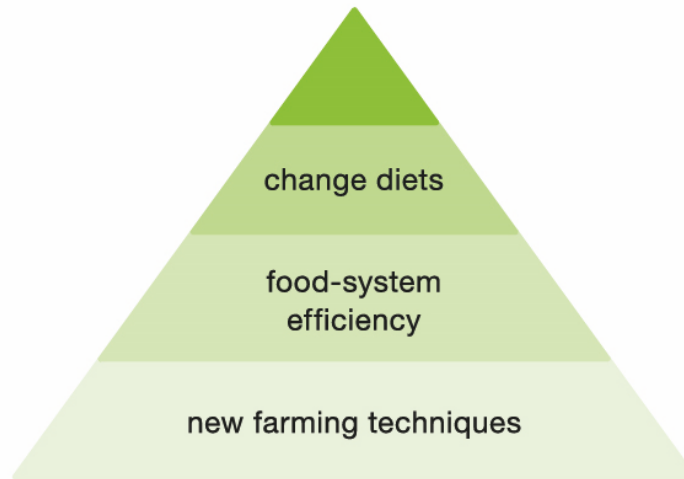

POVERTY

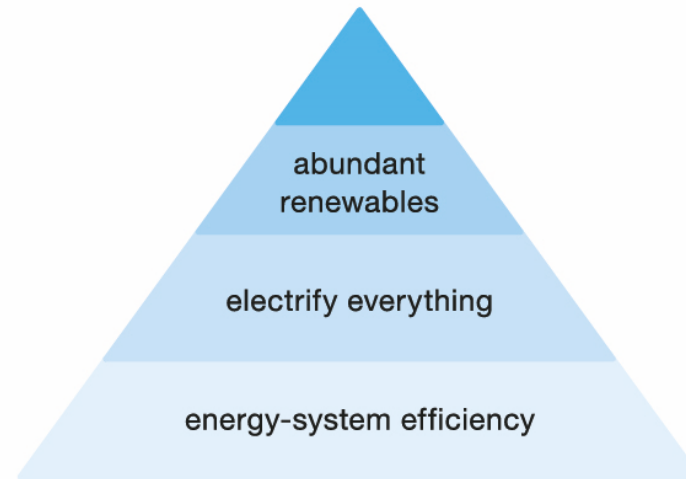

INEQUALITY

EMPOWERMENT

FOOD

ENERGY

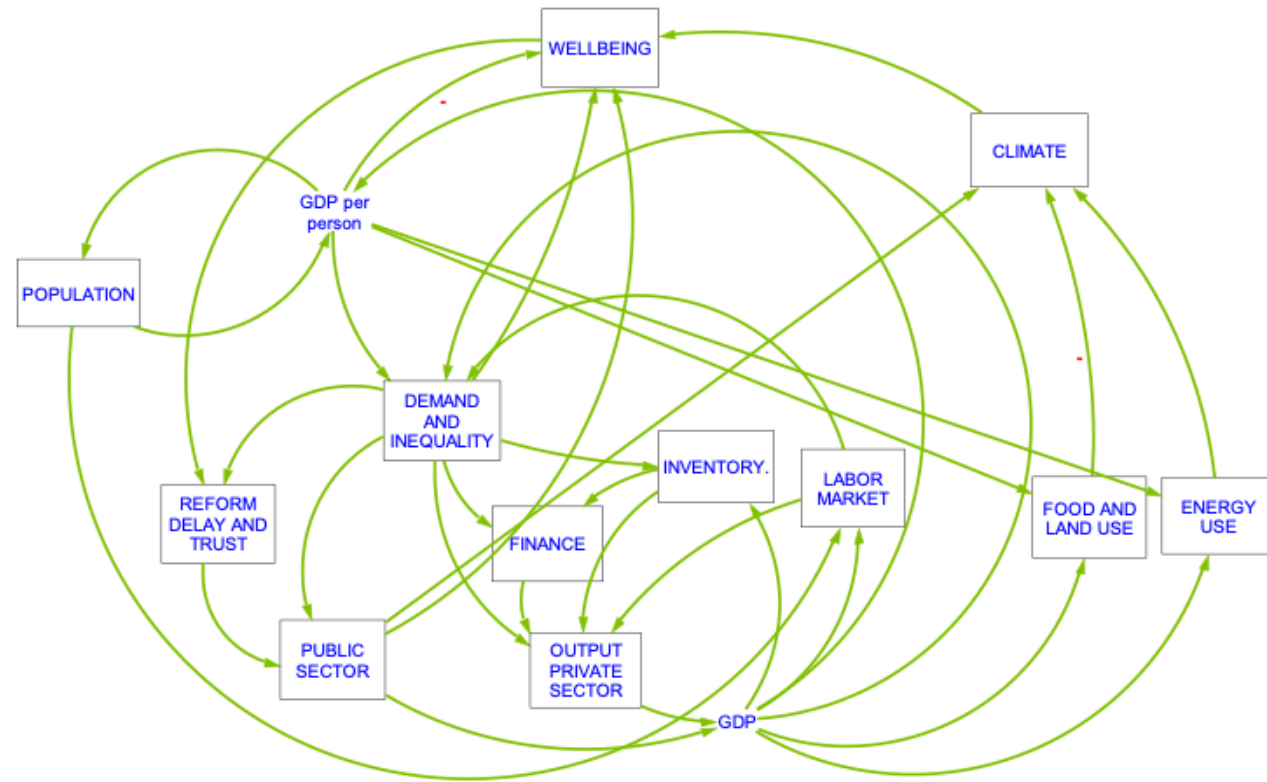

Defining the *future* wellbeing *from global to national?*

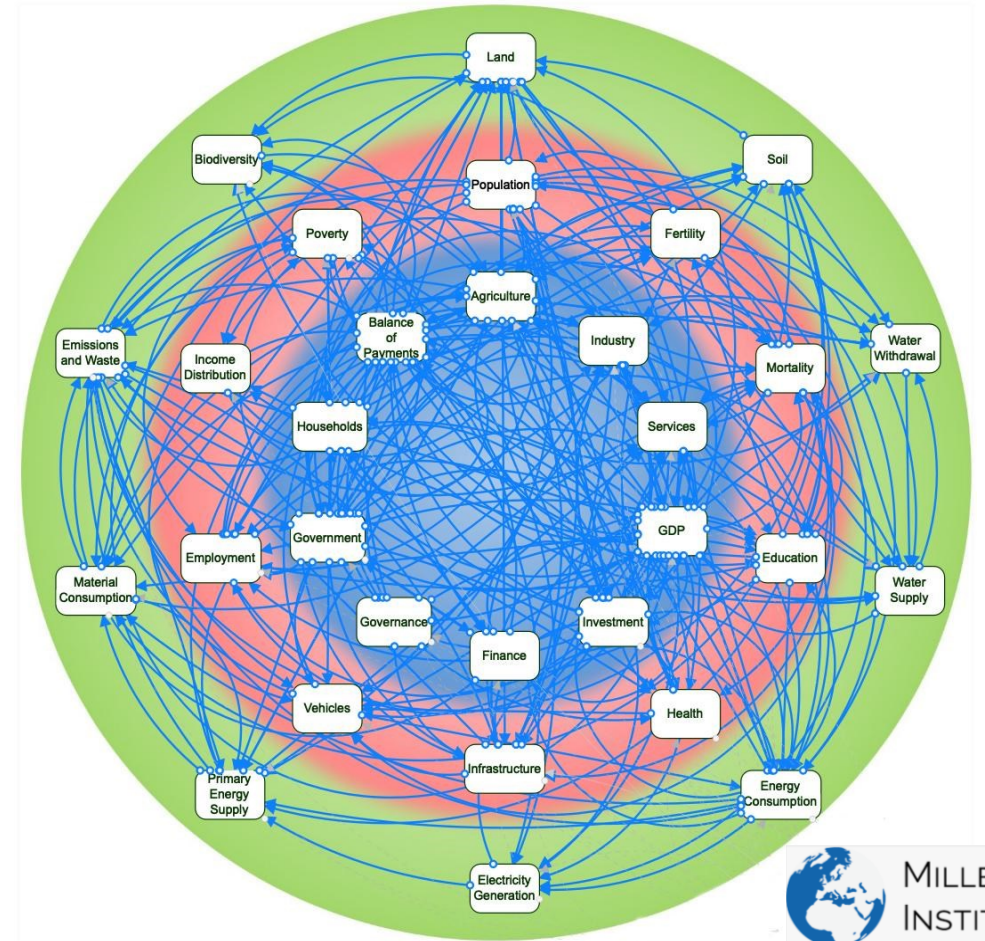

Dignity	Fundamental needs must be met	Worker disposable income k\$/p/y	→	?
Nature	People safe and healthy in their communities	Global warming in C	→	?
Connection	Institutions focused on delivering shared wellbeing	Public spending k\$/p/y	→	?
Fairness	Fair distribution of the commons and wealth	Owner incomes after tax / worker income after tax	→	?
Participation	Citizens actively engaged in economy & communities	People's observed progress (previous levels of wellbeing) + labour particip.	→	?

Earth4All Modelling

Global model

National model

Consistently ASSESS and QUANTIFY the econ-socio-bio-system dynamics and the impacts of 5 extraordinary actions on the national level

Key message

The *system change* we need is a **FUNCTION** of the *speed* of *global action* on poverty and *national action* on inequality, empowerment energy and food.

What future do we co-create to 2050 and 2100 in Austria?

Too Little Too Late (TLTL)
(decision-making as usual)

Giant Leap (GL)
(extraordinary turnarounds)
